

# CREATIVE CHAT

## 3.5 mm Stereo On-ear Headset with Noise-cancellation Condenser Mic and Inline Remote

The simple way to talk and listen, Creative Chat is a stereo headset that works on all operating systems and platforms via the standard 3.5 mm analog jack connection. Compatible with most of the popular conference apps like Zoom and Microsoft Teams, the headset features a retractable noise-cancelling boom mic with a direct microphone mute switch, perfect for productive work calls. When you're done with work, the Creative Chat is also tuned to deliver full and rich stereo audio for any media enjoyment—movies, music, and games alike.

### CONNECTIVITY

Plug in and that's it. The Creative Chat is a simple and straightforward 3.5 mm stereo headset that just works. It's compatible with most of the popular conference call apps too, you name it—Zoom, Microsoft Teams, Skype, Cisco WebEx, Facebook Messenger, and Google Meet—fuss-free, and worry-free.

Connect to the 4-pole 3.5 mm analog jack on your PC, Mac, or even mobile devices, and be ready for your online calls in seconds.

### COMMUNICATION

Be heard without disruptions, from wherever you are. Creative Chat solves the issue of disruptive work calls in noisy environments, whether you're at home or in the office. With a passive noise-cancelling condenser microphone, your voice gets picked up over the surrounding noises and heard clearly by the callers on the other end. This keeps their focus on what you have to say and presents you as an effective communicator.

The built-in boom microphone is also retractable, so you can choose to lift it upwards to get it out of your way when you're not in a call, and back down for a video conference.

### CONTROLS

Quickly toggle the microphone switch to unmute yourself when it's your turn to speak. The convenient inline remote lets you mute and unmute yourself easily with just a slide of the switch, as well as instant volume adjustments on the volume control dial. No more scrambling for that unmute button that's buried deep inside the conference app amongst the many tabs and screens anymore.

### DESIGN

Sturdy yet lightweight (192g / 6.77 oz), make the Creative Chat fit you better with its extendable padded headband! Designed for all-day use, the headset is also fitted with hyper-soft padded ear cushions to provide hours of comfort, with a (2.1m / 6.9 ft) cable that's just right for you to have the freedom to move around your desk, or even stand up during the online meetings for quick stretches to ease your muscle tensions.

### AUDIO

Enjoy full and rich stereo sound with the Creative Chat! This reliable headset is tuned to deliver superb acoustics, with bass performance that is punchy without being overwhelming, and while keeping the mids and highs clear and crisp. Equipped with 40 mm Neodymium drivers, the Creative Chat is great not just as a work tool, but also for other media content like movies, games, and even music!
