

**SMARTWATCH  
BADIAN SW-68**

## Smart Watch

# Badian SW-68

This watch is a rare combo for sporty people! Look, we have 22 sports modes, from regular walks to baseball and yoga. Statistically speaking, there is a high chance that your favorite activity will be among the included modes.

If you are an avid swimmer, our watch is protected by the IP68 standard. It will monitor your heart rate, your sleep, and remind you to drink water.

To keep you comfy, we used hypoallergenic silicone for the strap. The watch is highly customizable and allows you to receive notifications and control media playback. All that without the nuisance of charging it every night — our SW-68 model lasts up to 6 days in active mode.

**Please note that we care about your privacy — the Canyon smartwatch follows the GDPR standard and protects your personal data.**
