

FOLDABLE WIRELESS CHARGING STATION WCS-305

Meet the Canyon WCS-305 charging station — a liberating solution to break free from the tangles of charging cables. Compatible with most smartphones and devices following the Qi standard, including iPhone, Apple Watch, and AirPods, this compact station is your ticket to charging simplicity.

This charging station is a real multitasker and lets you charge up to three devices simultaneously. It supports Quick Charge technology, keeps devices safe from overheating and other threats, and controls the charging process.

When folded up, WCS-305 is pocket-size. You can shape it into a triangle, and it becomes a versatile phone holder, accommodating your device vertically or horizontally.

Worried about keeping your cases on? No problem! The station's high effective charging distance ensures your devices charge effortlessly with their cases intact.

Your gadgets are in good hands with the anti-slip coating, providing extra protection, and the LED ambient light keeps you informed at a glance.

Ready to ditch those annoying wires now? Embrace the wireless charging revolution with the Canyon WCS-305 charging station.

Charges 3 devices simultaneously

FOLDABLE AND COMPACT

Fold the device and use the travel case for easy carry: this charger is fun-sized and fits into your pocket. When fully unfolded, it charges three devices simultaneously. You can form a triangle shape and use it as a phone holder with charging functionality.

SIMULTANEOUS CHARGING OF UP TO 3 GADGETS

This charging station is all about convenient multitasking. You can wirelessly charge three devices simultaneously, including your iPhone, AirPods, Apple Watch, and any Qi-standard supporting gadgets. It's also compatible with most smartphones with the magnetic wireless charging module.

3 ways of charging

CHARGES YOUR DEVICE FASTER

The wireless charging station comes equipped with Quick Charge support, ensuring your device reaches full battery in no time. We also added an 18W Power Delivery adapter and a Type C cable to the package. No more waiting around – just speedy, efficient charging at its finest!

IN THE BOX

- Quick guide
- Power Adapter
- USB Type C cable
- Travel Case

Package includes a stylish textile case, ensuring all your charging accessories stay organized and easily accessible.

INTELLIGENT CHIPSET

Thanks to its advanced chipset, this charging station takes care of things smartly. It automatically selects the right charging mode for your device, ensuring optimal performance while preventing battery overheating, overvoltage, overcurrent, and foreign object damage. Your devices' batteries will also appreciate the thoughtful approach, giving them a longer lifespan.

EASY AND CONVENIENT

Stay informed with the LED indicator light, which cleverly communicates the station's status: blue for charging or fully charged, green for standby mode, and green with blue for foreign object detection.

With its anti-slip coating and rubberized feet, the station stays steady, and your devices won't budge an inch. It's the perfect setup for worry-free charging.
