

FOLDABLE SOLAR PANEL SP100W

Whenever you're in need of a portable, compact, and clean energy source, this Canyon Solar Panel comes to the rescue. Charge any device: your smartphone, tablet, camera, or laptop. Make sure to capture all your adventures with virtually no energy limits.

The two USB-A outputs and a Power Delivery USB C output with 45W provide plenty of charging options for all your devices. The PD port is particularly useful for charging laptops and other high-power devices.

There's a universal XT60 connector that allows this solar panel to be used with a power station – might come in handy at home in case of an outage. Foldable and lightweight, the solar panel is easy to carry anywhere. When folded, it can be stored in your backpack, taking up minimal space. The design makes this panel resilient to the rigors of outdoor use. It is IPX4 water resistant, meaning that the panel can handle splashes and drizzle.

With the Canyon solar panel, you can be powered up wherever you stay.

FOLDABLE AND PORTABLE

Measured at only 372×423×35mm when folded and 4kg of net weight, this panel can save your adventure.

Get it into your car or a backpack – it'll fit everywhere.

A blue textured bag is open, revealing a black power station and a solar panel inside. The power station has several ports labeled: LED, DC IN 5525 parallel connection, DC OUT XT60 100 W max., USB-C OUT 45W Power Delivery, USB-A OUT 18W Fast Charge 5V/9V/12V, and USB-A OUT 5V/2.4A. A black cable with a XT60 connector is plugged into the DC OUT XT60 port. The solar panel is partially visible at the bottom of the bag.

COMPATIBLE WITH ANY POWER STATION

Thanks to the universal XT60 connector, you can use this solar panel with any type of power station.

PERFECT FOR CAMPING, BACKUP HOME POWER, AND REMOTE POWER

Take it for a trip into the wild or keep it at home for a rainy day: this device isn't the type to collect dust in your garage. Outages happen, so having this renewable, clean energy source is essential for peace of mind.
