

CNS-CBTSP5

Wireless Speaker With Rich Powerful sound

Enjoy superior sound quality with powerful and rich bass and take calls in handsfree mode! This wireless speaker uses innovative Bluetooth 5.0 technology to ensure seamless 5-hour connection for non-stop music. You may also connect it to your devices via AUX cable or simply use it as a stand-alone music speaker with Micro-SD card in it. The speaker is compatible with all types of multimedia devices. Modern design with two trendy color variations make it a really cool gadget. If you are looking for an optimal balance between quality, portability and style - this is it!
