

CNS-CPBP20

Ultra-Capacious Li-Polymer Battery with 3-in-1 USB Cable 20,000 mAh

Maximum capacity, minimum size! This battery will take up minimum space in your bag, while delivering maximum charging possibilities for different types of devices. High-capacity lithium-polymer technology allows cutting 20% of typical device size. 20,000 mAh is enough for 6 charges of an average smartphone. If you carry around a set of gadgets with different interfaces, this powerbank is a great find. With 3-in-1 USB cable, you can charge your smartphone, headset, portable speakers and other devices with micro USB, USB Type-C and Lightning connectors. The “Smart IC” technology provides an optimum and safe current according to the individual parameters of each device. A great solution for the modern city dweller!

Model

CNS-CPBP20B	black	5291485005597
CNS-CPBP20W	white	5291485005603

Features

- Universal 3-in-1 USB cable (micro-USB, USB Type-C, Lightning)
- Capacity: 20000 mAh
- Up to 6 charges of an average smartphone
- Battery charge time - 7-8 hours
- Output: DC 5V/ max 2.1A
- Input: DC 5V/2.1A
- Smart IC technology, which allows to obtain the maximum possible current
- Compact size and minimum weight

Ultra compact
