# LEONOF GAMING KIT

**CND-SGS01**

CND-SGS01-US 5291485006259  
CND-SGS01-RU 5291485006242

This kit is as simple and functional as the spaceship of Russian astronaut Alexei Leonov! The kit delivers a great user experience both technically and aesthetically. The set includes a durable and stylish wired membrane keyboard, an ergonomic wired mouse with 6 programmable buttons, and a mousepad for high mouse sensor precision. The kit of gaming tools offers numerous advantages: unified style, optimization of gadgets and centralised user support by Canyon! Leonof gaming kit will be a great find not only for amateur players but also for those who want to enhance their workplace with cool-looking gadgets. All devices are made in a consonant aggressive design, which makes the game even more engaging and enjoyable.
