- » Supports PC, Mac® and Linux® clients and is VMware® certified
- » Remote access from anywhere in the world to your photos, videos and other files via personal web address
- » Built-in torrent support for peer-to-peer file sharing
- » New QuikTransfer feature moves data from a USB drive or replicates your data without the need of a PC
- » Save power with automatic hard drive spin-down; Energy Star® certified
- » 1TB, 2TB and 4TB capacities

POWERFUL DATA PROTECTION

Based on enterprise-class EMC storage technology, the Iomega StorCenter ix2-200 provides easy file sharing, iSCSI block access, and RAID 1 for optimized data protection. Business users will appreciate the robust data protection features such as UPS support, print serving, folder quotas, rsync device-to-device replication, and user replaceable drives for business continuity and disaster recovery. Finally, RSA® BSAFE® technology protects installs and upgrades.

CONTENT SHARING

The built-in media server turns the StorCenter ix2-200 into a multimedia hub. Simply store and organize your content—then listen, view and access your files, videos, photos and music from any compatible device on your network. Plus, share files among networked PC, Mac, or Linux computers.

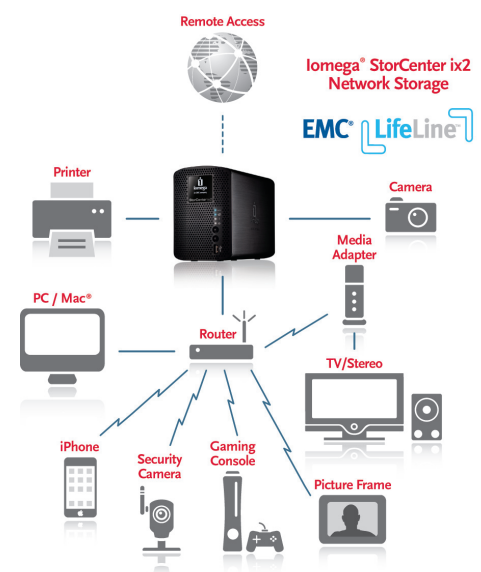

ADVANCED MEDIA FEATURES

Home users benefit from the advanced media features such as the DLNA® certified UPnP® AV Media Server, PTP (Picture Transfer Protocol), torrent download compatibility, Bluetooth® upload, and Cooliris™ slide show plug-in.

Remote access functionality allows you to access your pictures, videos, and files from anywhere in the world—as though you were sitting right at your workstation or home computer. And new torrent support facilitates peer-to-peer direct file sharing, making it easier and faster to download large media files.

EASY TO USE

An easy four step set-up wizard automatically detects and configures your network settings. Customization tools are also provided for advanced users. Plus, the simple and intuitive user interface makes this product easy for everyone.

FEATURES & BENEFITS

New Features

- » **Device-to-Device Replication** replicates your data from StorCenter to an external USB drive, or to another network target using rsync or CIFS copy jobs.
- » The **iomega® QuikTransfer** button on the front of your StorCenter ix2-200 makes it easy to transfer data from a USB drive or to run a replication job without the need of a PC.
- » The StorCenter ix2-200 will serve as a **Time Machine®** target for your Apple® computer backups.
- » **Power Saving** features include automatic hard drive spin-down and an Energy Star® certified power supply assure the most efficient (minimal) power consumption. Features low power consumption "green" Hard Disk Drives.
- » **Cooliris™** slide show plug-in allows for easy photo viewing.

Enhanced Data Protection

- » Powerful, award-winning **EMC® LifeLine™** software allows users to store and manage all of their valuable data on one centralized, secure, affordable storage appliance.
- » Secure data with **EMC Retrospect® Express** backup software for scheduled automatic backups and centralized reporting to confirm backups are complete.
- » **iomega QuikProtect™** software protects your computer files by putting them on the StorCenter ix2-200.
- » For additional data protection, enjoy **MozyHome™ Online Backup** service via optional download. 2GB free or upgrade to unlimited online for \$4.95/month.
- » Prevent against data loss in case of disk drive failure with **RAID 1** mirroring.
- » Proven **RSA® encryption** technology protects your data from hackers during installs and upgrades.

Sophisticated Features

- » **Bluetooth Upload** lets you easily transfer contacts, photos and other information from your Bluetooth phone, pocket PC or BlackBerry to your computer. Optional USB Bluetooth adapter required.
- » Easily connect up to 5 Axis® **Security Cameras** to your StorCenter ix2-200 to keep an eye on things while you're away.

- » The **Users & Groups** wizard helps you create users and manage access to shared folders. Support for Microsoft® Active Directory is also provided.
- » With **Remote Access**, you can connect to your pictures, videos, and files from anywhere in the world. Just enter a personalized web address into any browser, and you will be easily downloading and uploading your files securely. The first year of remote access is free – and it's only \$9.95 per year after. Custom domain names, such as www.yourfamilyname.com, are also available for a small additional charge. Remote access services are provided by TZO, the trusted name in Dynamic DNS Services.
- » **Folder Quotas** let you set a maximum capacity for shared storage folders on the StorCenter ix2-200—preventing any of them from consuming too much space. Allocate just the right amount of space for your most important documents.

Connect Multimedia Devices

- » **UPnP® and DLNA® certified** means the StorCenter ix2-200 will work seamlessly with digital products you may own or buy from different manufacturers allowing you to save, store and play all kinds of multimedia files.
- » Easily share files from your StorCenter ix2-200 to other media devices, including **DMA's (digital media adapters), DLNA or UPnP AV compatible** devices (i.e. stereo receivers, game consoles, picture frames).
- » Easily transfer pictures from your camera to the StorCenter ix2-200 with built-in support for **Picture Transfer Protocol**.

Extensive Content Sharing

- » **Built-in media server** turns your storage device into your multimedia hub.
- » Store your content on your StorCenter ix2-200, then listen, view and access your videos, files, photos and music from any compatible devices on your network.
- » Share files among **Windows®, Macintosh®, or Linux®** based personal computers.
- » **Torrent** technology facilitates download management, making it easier and faster to download large media files.
- » **Apple File Protocol (AFP)** native file system to facilitate copying files and automate networking from your Mac.
