

HyperX Cloud Alpha Pro Gaming Headset

More Chambers for Less Distortion.

HyperX™ Cloud Alpha's ground-breaking Dual Chamber Drivers design will give your audio more distinction and clarity by reducing distortion. The dual chambers separate the bass from the mids and highs, allowing optimal tuning for cleaner, smoother sound. The Cloud Alpha headset builds upon HyperX's foundation of signature award-winning comfort with premium red memory foam, expanded headband and softer, more pliable leatherette. The aluminium frame is built for long-lasting durability and, as requested by players, Cloud Alpha also features a tough, detachable braided cable. The detachable noise-cancellation microphone is certified by Discord and TeamSpeak™, ensuring you'll have great team communication. It's multi-platform compatible with in-line audio controls, so serious gamers on PC, PS4™, Xbox One™ and other platforms with a 3.5mm port will benefit from the bold sound of the Cloud Alpha evolution.

- HyperX Dual Chamber Drivers for more distinction and less distortion
- Signature award-winning HyperX comfort
- Durable aluminium frame with expanded headband
- Detachable braided cable with convenient in-line audio control
- Detachable noise-cancellation microphone
- Discord and TeamSpeak™ Certified
- Multi-platform compatibility

HyperX Cloud Alpha Pro Gaming Headset

FEATURES/BENEFITS

Custom 50mm Dual Chamber Drivers reduce distortion

Separation of bass frequencies from the mids and highs provides more accurate and smoother in-game audio.

Ultimate comfort for prolonged gaming

Over-ear design with award-winning, premium-quality signature red memory foam complemented by an expanded headband and softer, more pliable leatherette.

Long-lasting aluminium frame

Aluminium frame construction for durability and stability.

Convenient in-line audio controls

Audio controls conveniently situated on right side of detachable braided cable for easy volume adjustment and mic muting.
