

CNS-CPBP10

Ultra-Capacious
Li-Polymer Battery
with 3-in-1 USB
Cable 10,000 mAh

“Capacious” doesn’t mean “big”! Using innovative Lithium-polymer technology, we created a 10,000 mAh power bank that is 20% more compact than average. It requires less space without compromising the quantity of charge. Universal USB cable can help you to charge your smartphone, headphones, portable speakers and other devices with micro-USB, USB Type-C and Lightning connectors. Smart IC technology ensures an optimum and safe current for each particular device. A perfect find for a modern city dweller!

Model

CNS-CPBP10B	black	5291485005573
CNS-CPBP10W	white	5291485005580

Features

- Universal 3-in-1 USB cable (micro-USB, USB Type-C, Lightning)
- Capacity: 10000 mAh
- Up to 3 charges of an average smartphone
- Battery charge time - 3-4 hours
- Output: DC 5V/ max 2.1A
- Input: DC 5V/2.1A
- Smart IC technology, which allows to obtain the maximum possible current
- Compact size and minimum weight
