

CNS-CMPW6

Wireless Quick Charging Mouse Pad

This mat can charge almost any Qi-compatible gadget three times faster than a regular charger! It can recognize the type of device and select the appropriate amperage to make charging quick and safe. Canyon designers focused on the safety of new items, providing the mat with protection against overvoltage, overheating, short circuit and overload. The surface for mouse sliding is covered by a special Superfiber fabric, which provides high-precision control over the cursor movement and convenient maneuvering. It is great for all types of gaming mouse sensors. The rug will not move out on the table thanks to the anti-slip rubber base. To charge certain gadget, for example, a Canyon wireless mouse, you just need to leave it on the right side of the mat. If you love to optimize the use of your table space - this gadget is created for you!

Model

CNS-CMPW6
5291485005863

Features

- Fast charge technology
- Qi standard support
- Works with most Qi-compatible gadgets
- 5V / 9V-2A wireless charging point
- Surface optimized for all types of mice
- 1m micro-USB cable included
- Upper side: Superfiber, stitched frame
- Bottom side: anti-slip rubber base
- High wear resistance
- Protection from over-voltage
- Protection from overheating
- Protection from overload
- Short-circuit protection

324x244 mm size

Anti-slip rubber base

Over voltage/current protection

Short-circuit protection

Over temperature protection

All mouse types - optimized surface
