This mouse is designed for comfortable usage in the right hand. Its low-friction base glides smoothly on most of the surfaces. The ergonomic design of the mouse body ensures long lasting working sessions with minimal finger and wrist fatigue. The rubberized surface is pleasant to the touch, and 3 buttons make a soft sound while clicking. Each button can withstand around 3 million clicks. The mouse has a modern standard sensor with a resolution of 1000 DPI. A perfect accessory for your PC or laptop.
